This project is funded by
the Health Programme of
the European Union

What?

A European Research Infrastructure Consortium
on Health Information for Research and Evidence-based
Policy (HIREP-ERIC)

This project is funded by
the Health Programme of
the European Union

What?

Comparable and policy-relevant health information on population health and health system performance

Core activities:

- Generate knowledge
- Manage knowledge
- Exchange knowledge
- Translate knowledge

This project is funded by the Health Programme of the European Union

Core activities of ERIC

Generate knowledge

health data and indicators

1. Definitions and standards
2. Methodology
3. Collection
4. Analysis

Core activities of ERIC

Manage knowledge

1. Centralised virtual documentation
2. Access
3. Data protection and privacy

Core activities of ERIC

Exchange knowledge

1. Best practices
2. Capacity building
3. Networks and communities

Core activities of ERIC

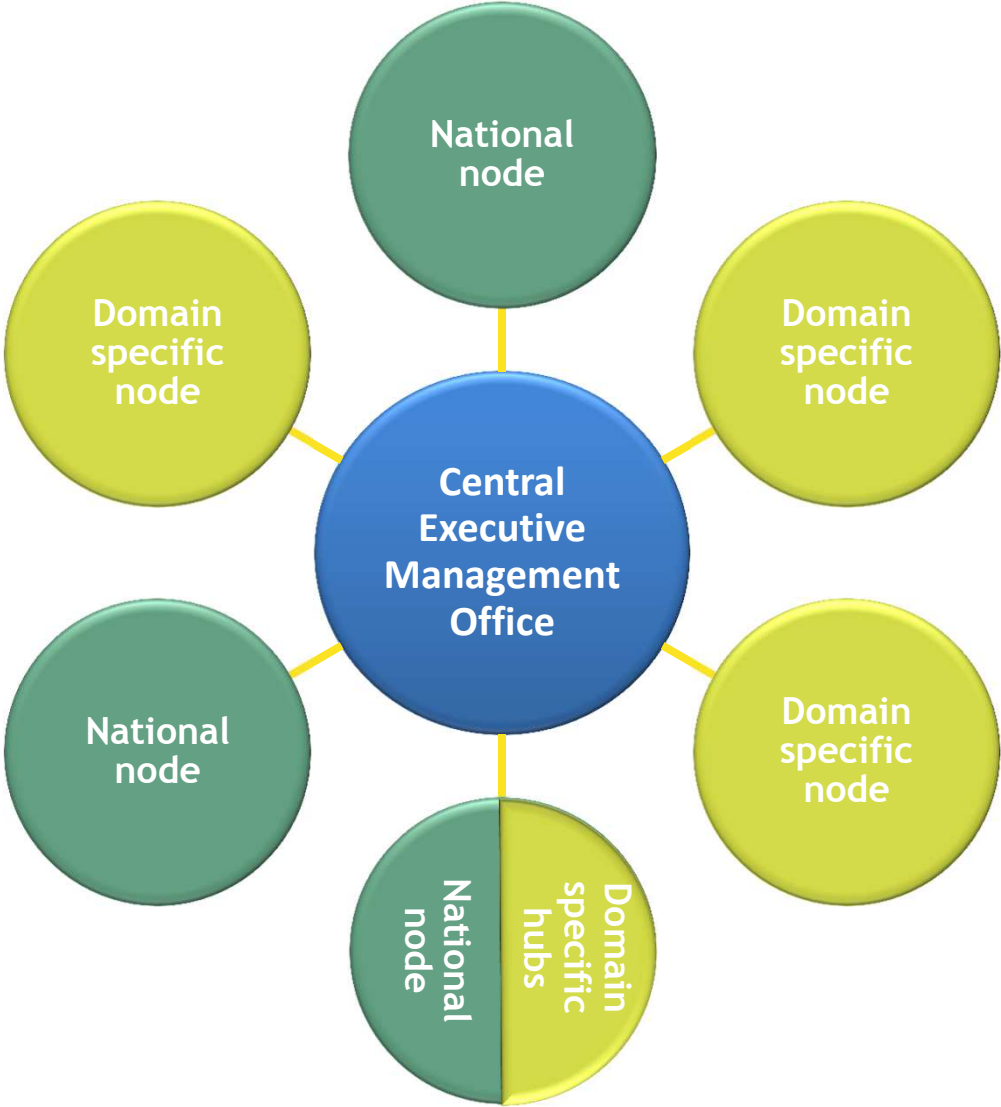

Translate knowledge

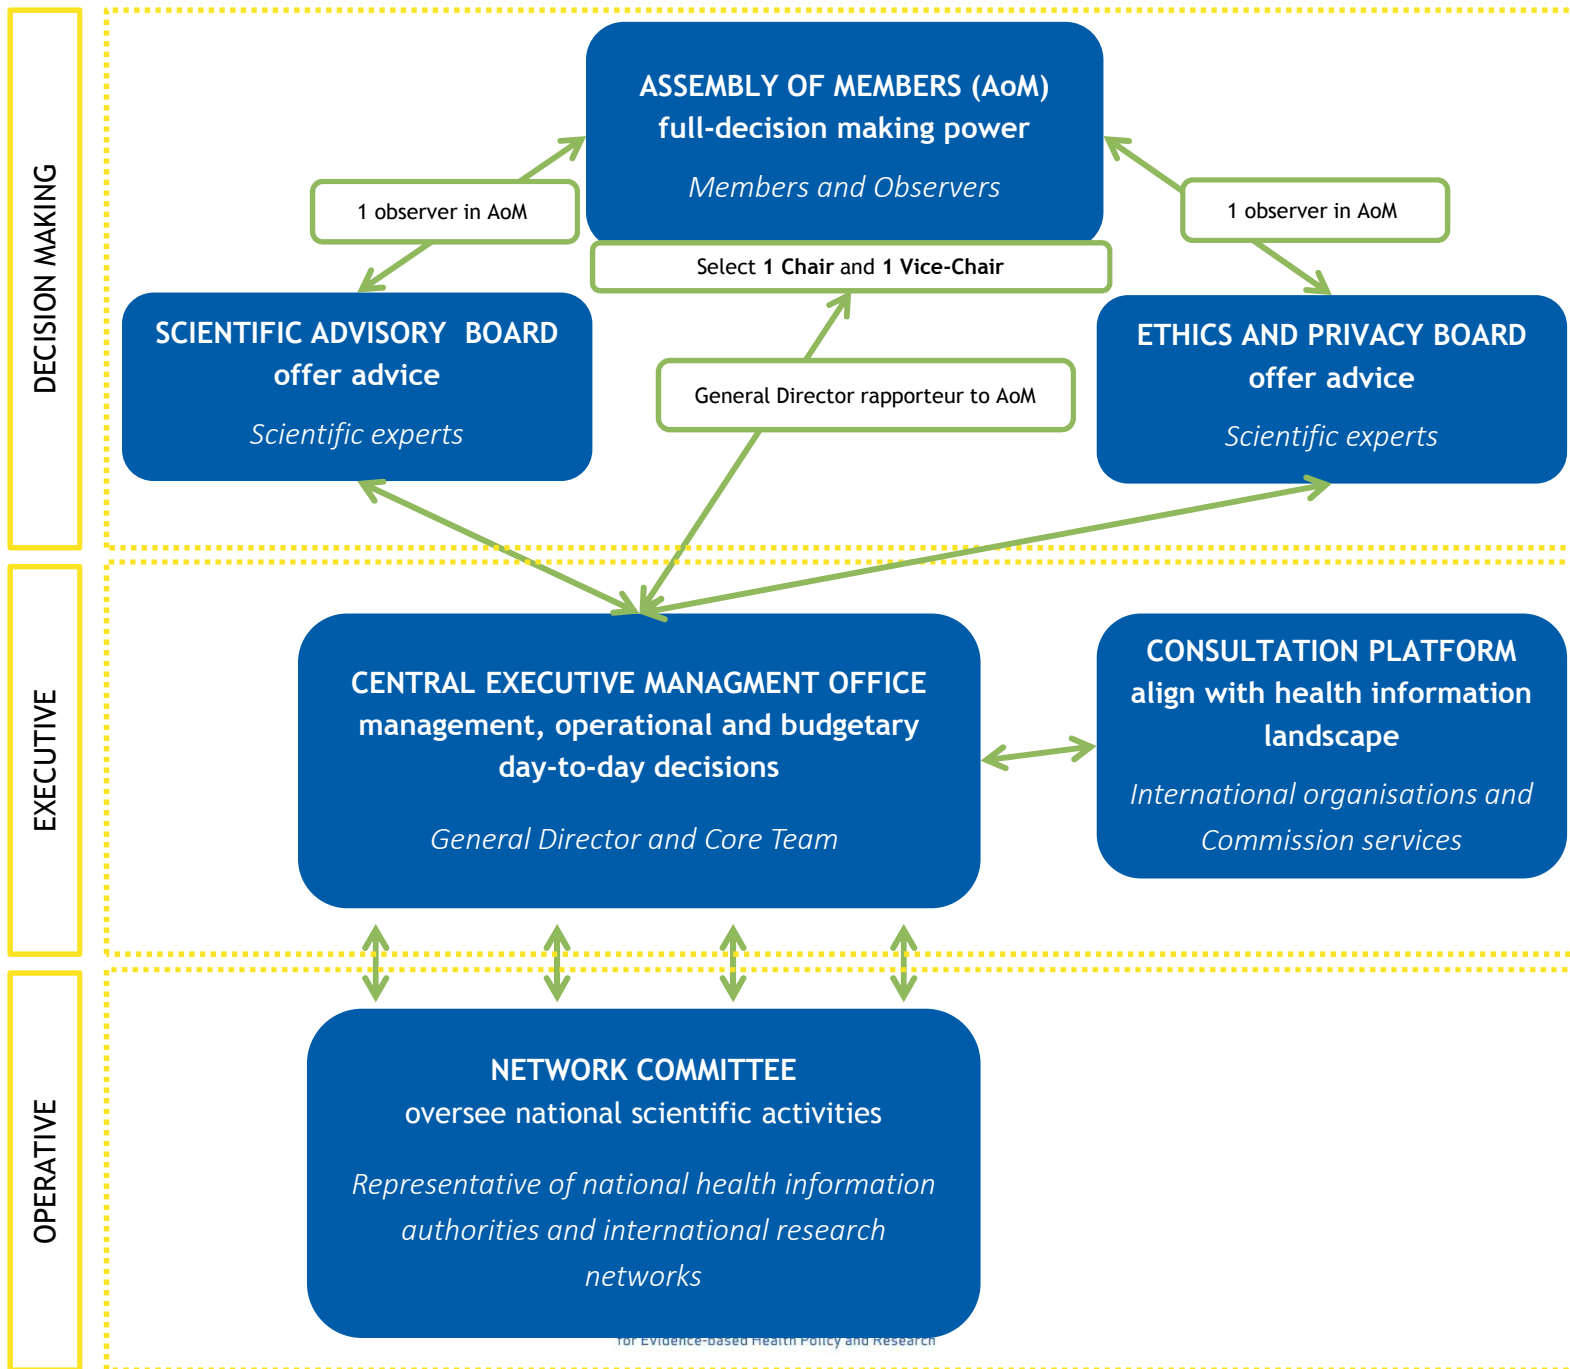

1. Tailored
2. Research outcomes
3. Expert advice

How?

-  Operates under strict **Member State governance**
-  At the **core of health information in the EU**
-  Benefit from relevant **EU funding opportunities** at a relatively low cost to its members
-  Functions as a **house for networks**
 - Member States = national node
 - Research = domain specific node

House for networks

Stepwise approach

Initial phase:

- Health indicators
- Capacity building
- Set up the governance structures

What is in for you?

Sustainable structure for

- Quality information for decision makers
- Tools to tackle similar challenges in MS
- Better access to existing knowledge and expertise
- Better value for money
